

Embroidered Paper Dolls

Making Embroidered Paper dolls and “dressing” them is such fun, using Husqvarna Viking Disks 115, 118 and 121! Any little girl will be thrilled to receive such a wonderful gift!

You will get very nice results sewing the dolls on 4 layers of Cutaway stabilizer with one layer of felt on top. For the clothes, sandwich 4 layers of craft netting with one layer of Cutaway stabilizer on top. This gives them nice body, and will enable you to cut close to the stitching when the embroidery is complete. For attaching the clothes to the dolls, you have several options. You could sew snaps or Velcro on the doll and the clothes or you could use Aleene’s Tack It Over and Over glue. Enjoy the dolls!

Once your doll family is complete, go to www.americasews.com, and download the instructions to make this adorable Martha Pullen Doll Carrier!
